The ultimate layout, locations and sizes of the development and site elements depicted on the Rezoning Plan as well as any schematic building elevations are graphic representations of the development and site elements proposed, and they may be altered or modified in accordance with the setback, yard and buffer requirements set forth on this

      iii. An effort will be made to preserve existing healthy trees whenever practical across the site.
c. Architectural Guidelines:

i. The community will be of traditional architectural design with 4-sided architecture that consists of a combination of brick facades, masonry veneers, stone, and hardiplank.

ii. The single family homes will be one and a half and two story designs with crawl space foundations.

iii. Some select units may be a master-down style plan.
