Zoning Application 2020-721: Text amendment to modify the Open Space requirements in the C-MF zoning district

TO: Matthews Planning Board Members
DATE: January 20, 2021
FROM: Robert Will, Senior Planner

During the Public Hearing for Text Amendments to modify the open space requirements and criteria for what is permitted as open space there was discussion about the possibility of using a graduated approach based on the acreage of each site and number of units that are proposed.

On January 13th staff meet with the applicant to discuss a proposed solution as the town was not comfortable with the proposed amendment because it is a whole-sale change to the open space section and on its face seemed to be difficult to administer. Based on this discussion the applicant has submitted the following for consideration:

“155.503.4.C.5
OPEN SPACE REQUIREMENT. A C-MF designation of three (3) or more acres shall include an open space system featuring pedestrian amenities which must be connected to pedestrian and bicycle facilities in the surrounding neighborhoods. The open space system may include areas devoted to post construction, water quality and/or storm water detention measures, any required or provided landscaping or screening areas, SWIM buffers, tree save areas, walkways and sidewalks, greenways or environmental protection features. A minimum of one-fiftieth (1/50) one thirty fifth (1/35) of an acre of open space must be provided for every dwelling unit created. The open space shall generally be located as a single tract within the C-MF designated site and at least one-half (1/2) of it shall be usable by residents or/and the public for recreation. **Useable open space areas/amenities, such as grills, pools, tennis courts, playgrounds, dog parks and other improved areas with amenities for the residents or/and the public are permitted as part of the required open space. When the open space requirement cannot feasibly be accomplished on-site, then an off-site location of equivalent size and within one-half (1/2) mile shall be identified as an alternative public park site. This off-site property shall be deeded or dedicated to the Town after it is improved as a park.”

Planning Board Recommendation on Zoning-Related Issues

ZONING APPLICATION # ______________________________
ZONING MOTION # _____________2020-721_____________
ADMINISTRATIVE AMENDMENT _______________________________

Matthews Planning Board adopts the checked statement below:

A) __X__ The requested zoning action, as most currently amended, is recommended for approval, and has been found to be CONSISTENT with the Matthews Land Use Plan (or other document(s)), as follows:

CONSISTENT: The text amendment is consistent because the purpose of the C-MF zoning district is to create higher density residential uses while still maintaining usable open space.

REASONABLE: The text amendment is reasonable because it allows more flexibility for urban open space in the C-MF zoning district.

OR

B) _____ The requested zoning action, as most currently amended, is not approved, and has been found to be INCONSISTENT with the Matthews Land Use Plan (or other document(s)), as follows:

INCONSISTENT: The text amendment is inconsistent with the Land Use Plan because it reduces the amount of required open space in the C-MF district.

NOT REASONABLE: The text amendment is not reasonable as would allow for less open space for multi-family housing in the C-MF zoning district.

(In each case, the Statement must explain why the Board deems the action reasonable and in the public interest (more than one sentence). Reasons given for a zoning request being "consistent" or "not consistent" are not subject to judicial review.)
