AARP’s Action Plan Review Process

After your core team drafts an action plan, you will submit it to AARP for a review process. The purpose of the review is to allow representatives of AARP and WHO to look at your plan outside the local context, to offer suggestions about implementation or evaluation, and to glean ideas to share with other communities. After the review team looks through your plan, it will either make a few recommendations for strengthening the plan or recommend that your community move into implementation and evaluation.
